

# Skills Coaching

**Our Skills Coaching service is a voluntary and impartial service which aims to support you by understanding where the world of work links with your learning.**

## What's in it for me?

### **My Skills Coach will help me....**

Understand what my interests can lead to, explore and visit different workplaces, develop my employability skills for the future, recognise the benefits of learning in the world of work and keep updated with Skills Jersey events and opportunities.

### **With my Skills Coach I will....**

Explore my interests and aspirations, identify my strengths, find ways to manage my barriers to the world of work, identify employers and workplaces that I would like to visit, meet regularly and be engaged, set myself goals and new challenges and discover my pathways and options.

### **My Skills Coach and I, together will...**

Organise how often, when and where we meet.
